

STS 2024

LUNG TRANSPLANT SYMPOSIUM

Surgical and Medical Insights for Transplant Assessment and Management

JANUARY 26, 2024

**8:00 a.m. - 4:00 p.m. CT
SAN ANTONIO, TEXAS**

Presented as a pre-conference activity at the 2024 STS Annual Meeting, this symposium will provide insight to best-practice approaches for surgical and medical care of lung transplant patients, from assessment as candidates though post-surgical care as recipients. The faculty will include international physician experts in cardiothoracic surgery and pulmonary medicine.

This course will offer basic to advanced-level knowledge for physicians early in their careers and experienced practitioners who wish to upgrade their knowledge with state-of-the-art practices and insights.

Scan the QR code to add your contact information and be notified when registration opens later this year.
